

This workshop will provide instruction of basic skills and techniques required to perform routine nerve conduction studies. The following agenda will be kept as much as possible. However, please remember this is a hands-on workshop tailored to the needs of the attendees, so the topics of discussion frequently alters the direction of the workshop.

Workshop Faculty: Alaa Bouzhar, R.NCS.T., Brian Garrison, R.NCS.T. and Wendy Sebetka. R.NCS.T.

Saturday, December 1st, 8:00am-5:00pm in the Costal Room 1 and 2

Check in anytime between 7:30am and 8:00am

8:00am-12:00pm: Upper Extremity

10:00-10:15am: Break

12:00pm-1:00pm: Lunch will be provided to attendees, location TBA

1:00pm-5:00pm: Lower Extremity

3:00pm: Break

5:00pm: Adjourn for Evening

Sunday, December 2nd, 8:00am-5:00pm in the Costal Room 1 and 2

Check in anytime between 7:45am and 8:00am

8:00am-12:00pm: Advanced Procedures and Techniques

10:00-10:15am: Break

12:00pm-1:00pm: Lunch will be provided to attendees, location TBA

1:00pm-5:00pm: Attendee Requests

3:00pm: Break

5:00pm: Adjourn

Attendees will be given an AAET workbook that details basic and advanced nerve conduction study procedures. We try to keep the number of attendees low to give all participants ample opportunities to ask questions and perform necessary studies. This is great chance to meet other techs, socialize and learn from each other in a casual, stress free environment.

Following the completion of this event you will receive an email via ProProfs with instructions on how to obtain your certificate for 16 AAET-CE's.
